How to add a new city to the World Clock on your iPhone or iPad

It's easy to keep tabs on various time zones using the Clock app on your iPhone or iPad. Here's how:

- Launch the Clock app from your Home screen.
- Tap on the World Clock tab. It's the globe in the bottom left corner of your screen.
- Tap on the Add button. It's the + in the top right corner of your screen. This is the feature to use. Tap on the Search bar at the top of your screen.
- Type the name of the city you want. Alternatively, you can scroll through the entire list if you feel like going around the world in 80 seconds.
- Tap on the city you want from the list provided.

TIPS, TRICKS AND FIXES APRIL 2022

The new clock will now be on the main screen in the World Clock. As well as showing the time in your selected destination, the World Clock will also tell you how many hours behind or ahead that location is from your current timezone. There is absolutely no limit to the number of clocks you can add, so go nuts!

How to remove a city from the World Clock on your iPhone or iPad

Your best friend is finally home from her vacation in Japan and you no longer need to keep track of the time in Tokyo. Luckily for you, getting rid of a city in the World Clock is just as easy — or even easier — than adding one.

- Launch the Clock app from your Home screen.
- Tap on the World Clock tab. It's the globe in the bottom left corner of your screen.
- Swipe left on the city you wish to remove.
- Tap the red Delete button to the right of the city.
