

iPhone (iOS 15) Essentials ... Part 2

1. **How to Turn On Walking Steadiness on iPhone ...**
 - **Open Health** App and **Tap** On the **Summary** Tab ...
 - **Scroll Down** to **Walking Steadiness Notifications** & **Tap Set Up ...**
 - **Tap Next** and **Confirm** your Personal Details and **Tap Next** again ...
 - **Read** about “**what each Walking Steadiness level means**”, and then **Tap Next ...**
 - If you want notifications about **Low or Very Low Walking Steadiness Levels**, ... **Tap Turn On** to **Allow Alerts ...** then **Tap Done**.
2. **How to Change Text Size on iPhone for Individual Apps ...**
 - **First:** **Add Font Size** to Control Center ...
 - Settings > Control Center > **Turn On:** Access Within Apps ... **(On/Off)**
 - Check **INCLUDE CONTROLS** and **MORE CONTROLS** for **Text Size ...**
 - In **MORE CONTROLS Tap Green (+)** to **Add Text Size** to **INCLUDE CONTROLS ...**
 - **Second: Tap** on an any App that you want to **Change Text Size ...**
 - **Open** the **Control Center** by **Swiping Down** from the **top-right corner** of your screen ... *(For iPhones with a Home button, **Swipe Up** from the **Bottom** of the screen.)*
 - **Tap** the “**App Name**” **Only**, then **Adjust Text Size** icon to **Adjust font size** *(Note: If you **Tap** “All Apps” you will **Change** the Text Size for **Every App**) ...*
 - When you're finished, **Tap** a **Blank Part** of the screen to exit.
3. **Add Emojis in Messages Without Opening the Emoji Keyboard ...**
 - **First:** **Turn On Predictive ...**
 - **Tap** Settings > General > Keyboard > Predictive > **(On/Off)**.
 - **Second: Open** the **Messages App** and **Start** a new message ...
 - **Instead** of **Tapping** the **Globe Icon**, **Type** the **Word** for the **Emoji** you want to use.
 - *(Note: If you **Tap** the **Running** **Emoji** **After Tapping** the **Spacebar**, the **Running** **Emoji** will be **Added** **Next** to the word “**Running**”.)*
4. **How to See Timestamp on iPhone Text Messages ...**
 - **Tap On** the **Messages App ...**
 - **Tap On** a message *(that you use a lot) ...*
 - **Texts** from **different days** will be **Separated** by a date stamp ...
 - To **See** text message **timestamps**, **Tap** and **Drag** the **Message Screen** to the **Left ...**
 - Now you'll **See** the time **Each Text** in the thread was **Received**
 - When you take your **Finger Off** of the screen, the iPhone message timestamps will be **hidden** again.

iPhone (iOS 15) Essentials ... Part 2

5. How to Use FaceTime Eye Contact ...

- Settings > **Tap** on **FaceTime** ...
- **Scroll Down** and **Tap** the **Eye Contact** toggle (**On/Off**).
- *(Note: FaceTime will use **minor corrections** to help your call feel and look more natural.)*

6. Hate the New Safari? How to Get Back the Old Safari Layout ...

- Settings > **Tap** on **Safari** ...
- **Scroll Down** to the **Tabs** section ...
- **Tap** on the **Single Tab**.
- *(Note: This will **switch** Safari back to the layout **before iOS 15** and **Put** the **address bar** back at the top.)*

7. How to Use the Black Point Tool to Edit iPhone Photos ...

- **Open Photos**, and **Tap** on **Library** ...
- **Tap** on a photo to **use** and **Tap** on **Edit (Upper Left Corner)** ...
- **Tap** on the **Clock-Like icon** on the bottom ...
- **Swipe** from **right to left** through the editing tools, **Stop** at **Black Point** ...
- **Slide** the scale **left and right** to **adjust** the **Black Point**.
- *(Note: **Increasing Black Point**, sliding the scale left, will add depth to the darker parts of your photo.)*

8. How to Leave (or Silence) a Group Text on iPhone ...

- **Open Messages** and **Tap** on a **Group Message** ...
- **Tap** the **Top Header** of the message, where the people are displayed ...
- **Scroll Down** and **Tap Leave this Conversation**, **Tap Leave this Conversation** again to **Confirm**, then **Tap Done**.
- *(Note: If you don't see the option to leave, some members are not using Apple devices and you can't leave. But, you can still silence the conversation by **Turning On Hide Alerts**.)*

9. How to Send Confetti on iPhone Message ...

- **Open** the **Messages** app, and **Start** a **New Message** ...
- **Enter** the **Name** of at least One Recipient ...
- *(Note: If you **Type** in the **Name** of someone with an **iPhone**, the **Name** will be **Blue** – if it is **Green**, it's **Not** an Apple device and the Special Effects **Won't Work**.) ...*
- **Type** your **Message** ...
- **Instead of Tapping** the **Blue Arrow** to send the message, **Long Press** the **Arrow** for at **Least a Second** ...
- A new **Send with Effect** screen will **Pop Up**, **Tap On Screen** ...
- **Swipe** from the **Right Side** of the screen to the **Left** through the different effects until you get to the **Confetti**, then **Tap** the **Blue Arrow** to **Send**.
